THE EAGLE. - Among the multitude of pleasant occurrences and coincidences on Thursday afternoon, while the Whig members of Congress were entering the city, was one which is worthy of special notice. A fine gray eagle, "Jove's own bird," came down from his mountain eyrie, and sailed magnificently among the assembled host, until be found it convenient to rest the "sole of his foot" upon the topmost round of some ship's top-gallantmast, whence he would flutter to another, screaming at times his freedom notes, as if in the fastnesses of the rocks, and in concert with the huzza of the crowd, and the rear of the artillery. It was a fine sight, and a glorious omen. The bird of liberry found the atmosphere congenial, when it warent with the cries for the principles of freedom, and freedom's noblest son, Henry Clay,

The good effects of the Tariff are already apparent. Several factories in this city which have long been closed, will immediately commence operations. Among them the Globe Mills, Lenig's Chemical Works, and Dr. Bergen's Glass Works. We learn also, that the Lehigh Company has been applied to for water power to be applied to some new Iron Works. These are indeed cheering signs of the times. May they increase and multiply! [Phil. Nat. Gaz.

FATAL RECONTRE. -On Saturday evening, the 20th ult. a difficulty occurred in Hamburg, Georgia, between Mr. Joseph Wood and Mr. Jas. Rooney, in which the latter received a wound from a pistol shot, of which he died in a few minutes. Mr. W. thought himself so fully justified, that he delivered himself up to the legal authorities.

SANDS'S SARSAPARILLA.-This medicine has already performed some almost incredible cares of diseases arising from impurities of the blood and general system. The testimony of those who have been cured by its use, with their residences, has been published from day to day, and were it desirable, a mass of the most overwheiming testimony could be brought forward, proving most conclusively its inestimable value, as an active curative medicine above diseases.

In the above diseases.

In this preparation are strongly concentrated all the valuable medicinal principles of Sarsaparilla on which its activity depends, compounded with other remedial agents, selected from the vegetable kingdom, the whole strength of which is extracted on an entirely new principle, which has cost many years of labor and great expense. The great end desired is now triumphantly accomplished, in the production of a remedy possessing a controlling power over supposed incurable diseases, heretofore unknown in the history of medicine.

If this be so for Henren's sole ict us have them. Decisions.-Henry Gable, and others, vs. Jacob F. Mil ler, and others. This was a case relative to the Forsythstreet Dutch Reformed Church, the troubles in which, (as to the ejectment of the minister, &c.) six or seven years ago will be remembered by our readers. The church was founded in 1763, and originally established in Nassau-street, near Maidenlane, but the building was taken down and the pre sent one in Forsyth-street erected. It was attached to the Reformed Dutch Synod, and the complainants were trustees but the defendants succeed, about 1835, in securing a number of Lutheran members, causing themselves to be elected trustees, declaring the church to be independent, and estab lishing it as a Lutheran or Armenian Church. By this means, also, they acquired possession of the Church property, worth something like \$100,000. The case was then brown into chancery by the old board, on the ground that he defendants had diverted the estate from the intention of the founders, of whom they (the old board) are the true sucessors, &c. After being in litigation for several years, the case recently came to a hearing, in which Mr. Geo. Wood and Mr. John Graham appeared for the complainants and Mr. Chnton De Witt for the defeadants. The Assistant Vice Chancellor has now given a written opinion, in which the history of the Reformation, the subject of Church Government, &c. are alluded to at great length, and exhibiting much deep research. He concluded by observing that the defendants do not appear to have departed from the standards of faith of the church at its formation in 1763, or that the positions of the complainants could be sustained, and ordered that the Bill be dismissed, with costs-thus deciding throughout in favor of the new board.

PARISIAN STYLE OF HATS.

The attention of gentlemen is particularly invited to the subscriber's beautifully fabricated Silk Hats, letter known "Warnock's Moleskin Hats." This article, since its introduction, has rapidly acquired and successfully maintains its popularity, produced by the subscriber in a manner altogether superior to any of the kind that has been or is now petore the public, and is worthy of entice as possessing all the qualities of a superior hat, as lightness, beauty of finish, permanency of color, and capacity for service.

That the Moleskin Silk Hat possesses the very element studiously aimed at in the production of a perfect article, it needs only to be stated that the foundation or body is It needs only to be stated that the foundation or body is manufactured from the finest description of stock, and the plush or covering of the finest quality silk, than which, it will readily be admitted, there is nothing of the nature of fabric more durable. To gentlemen who have not given the above hats a trial, it is remarked that they have been for years the most popular, and are now almost exclusively the fashionable Hat of Paris—this, to say the least, is a strong recommendation. To such gentlemen as have preference for French manufacture, it is remarked that from the subscriber's observations during a recent visit to the French scriber's observations during a recent visit to the French metropolis, he is enabled to say, that though in one or two particulars the French excel, yet in the main, the article old by him is superlor. At a meeting of the Directors of the Merchants' Ex change Bank, James Van Nostrand, Esq., was this morning elected President, vice Peter Stagg, deceased.

Some surprise having been felt at a discrepancy between he dates and numbers of the Banks of the State of Kentucky, that is that bonds of a certain date should be name bered higher than bonds of a later date, the Secretary o Kentucky has published a statement. He explains that some bonds regularly numbered but not dated, were deposited in the Northern Bank: one of these bonds were paid out and dated at the time of payment by the Cashier. This has created the discrepancy. From a communication in the Albany Argus the Safety

Fund appears to be in better condition than was anticipa ed. Twenty-two banks have availed themselves of the law allowing them to pay in six years contributions in one sum, in broken bank notes at par. They have paid in \$200,060 and other large banks are preparing to do the same. It also appears that the Fund will get material retief from amounts to be repaid by the Commercial Bank, (\$131 731) the Lafayette, Clinton, Watervliet, Lewis County, Commercial Bank, Oswego, &c. Holders of suspended pank notes, it is supposed, may look for a much earlier relemption than was supposed six months ago.

All the banks of Lancaster, including that of the Columia Bridge, resumed payment of specie for all their notes and deposites, on the first instant, agreeably to their previ ous arrangements.

The suit of the State of Louisiana against the Commer nercial, Canal, Citizens' and Consolidated Banks for a for feiture of their charters came on on the 26th ult. before the District Court. The counsel of the two first banks produced evidence to show that they had placed themselves within the limits of the Bank Law, by having in their vaults an amount of specie equal to one-third of their circulation. The suitaga inst them was consequently dropped. The case of the Citizens' Bank will be argued on the 2d September, and that of the Consolidated Bank on the Mon day following.

He will give his attention to the sale of Real Estate, Stocks, Bonds and other securities, Furniture and Out-Door Sales generally. Sales generally.

It is believed that the selling of Stocks by auction 2s a

regular business has never been attempted in this city. In Boston and other cities most of the stacks are disposed of at public sale. This mode of transacting business presents advantages over the present custom. At auction sales the dealers in stocks can always be present and judge for themselves whether the sales are fairly conducted or not, a privilege of which they are now denotes the relives whether the sales are fairly conducted or not, a privi-iege of which they are now deprived.

The seller will have to pay no more commission than the regular brokerage, and the purchaser will by attending to the sale save the amount of a brokerage.

The numerous kinds of stock offered in this market that are not quoted on the books of the brokers, and therefore are rendered unsalable, wii by the adoption of this plan enable the holder to present them favorably before the pub-lic through the advertisement of the auctioneer.

POMAN EYE BALSAM, for Weak and is damed Eyes.—This Baisam is a prescription of one of the most celebrated occilists, has been a long time in use, and is confidently recommended to the public as the nest and most successful salve ever used for inflammatory tisenses of the eye. In cases where the eyelids are very slood, it operates almost like magic, and removes all appearance of disease after two or three applications.

To Dinness of Sight caused by fixed attention to minute objects, or by iong exposure to a strong light, and in the weatness or partial loss of sight from sickness or old age, it is a sure restorer, and should be used by all who find their eye ight failing without any apparent disease.

This Bulsani has restored sight in many instances where almost TOTAL BLINDNESS, caused by excessive infammation, had existed for years. The fine herbal medicine which is compounded from its direction has, in thousands of cases, been tried and proved to be the most efficient remedy of the day.
